EDUCATION

Computer Programmer — **2020**
Algonquin College — *Canada*

Bachelor of Engineering - Computer — **2015**
Gujarat Technological University — *India*

EXPERIENCE

ORBCOMM — **March 2021 - Present**
Mobile Application Developer — *Ottawa, ON, Canada*

- Led development of Android (Kotlin) and iOS (SwiftUI) apps for BLE device data transfer.
- Spearheading a Kotlin Multiplatform (KMP) project to unify business logic across Android and iOS, enhancing maintainability and efficiency.
- Managed and mentored a team, ensuring adherence to best practices and high code quality.
- Conducted code reviews and enforced coding standards using GitLab.
- Coordinated cross-functional efforts, including hardware team integration.
- Developed and maintained project documentation and provided technical guidance.

SageTea Inc — **Dec 2019 - Apr 2020**
Software Developer — *Ottawa, ON, Canada*

- Developed and maintained a WordPress website and distributed mobile applications.
- Consulted with clients to understand their needs and provided regular updates.

Freelancer — **Jun 2019 - Nov 2019**
Mobile Application Developer — *Remote, India*

- Developed a news application with a user-friendly interface and smooth functionality.
- Designed logos, incorporating clients' brand identity and vision.
- Managed project timelines, delivering high-quality work within deadlines.
- Communicated effectively with clients for tailored solutions.
- Utilized feedback to refine and enhance final products, ensuring client satisfaction.

Ecosmob Pvt. Ltd. — **Sep 2018 - Jun 2019**
Software Developer — *Ahmedabad, Gujarat, India*

- Developed VoIP-based Android applications using Kotlin.
- Conducted training sessions for junior developers on performance-driven coding.
- Participated in the hiring process for Android application developers.

Hodusoft Pvt. Ltd. — **May 2016 - Sep 2018**
Software Developer — *Ahmedabad, Gujarat, India*

- Published multiple applications to the Google Play Store.
- Created white-labeled apps in Java with Firebase integration for real-time data sharing.
- Integrated Google Maps API, payment gateways, and other third-party APIs.
- Attended client meetings for new requirements and analysis.

SKILLS

Programming Languages
Kotlin (including Kotlin Multiplatform - KMP), Java, Swift

Tools
Android Studio, Xcode, Figma, Git, Git-flow, Gitlab, Fastlane, Jenkins

Frameworks
Jetpack Compose, SwiftUI, KMP

Testing Frameworks
JUnit, Espresso, XCTest

Database
SQLite, RoomDB, CoreData, FirestoreDB, Realm

Others
REST, BLE, Google Maps, Push Notifications, Deeplink

PROJECTS

ORBCOMM Field Support Tool | Android | iOS

- Led migration to Kotlin Multiplatform (KMP) for unified business logic across Android & iOS.
- This app helps to install and configure ORBCOMM manufactured devices.
- Developed BLE device setup apps using MVVM, Google Maps API, and REST API.
- Optimized performance, error handling, and UX/UI design.

ORBCOMM Installation for HLAG | Android | iOS

- Built a tool for ORBCOMM's CT1000 device pairing using Bluetooth & communication protocols.
- Enhanced installation speed, reliability, and provided detailed user documentation.

Printing Label Maker | Android

- Developed an Android app with MVVM, Firebase cloud storage & OTP authentication.
- Enabled label customization, smooth data sync, and user-friendly experience.

Prachar Weekly | Android

- Built a Kotlin-based local news app with notifications & multimedia support.
- Integrated analytics & user feedback for continuous improvements.

MyEDU Bus Tracker

- Developed a real-time school bus tracking app with Firebase & GPS integration.
- Designed notifications & analytics for performance monitoring.

Image English School

- Built a parent-teacher-student communication platform with messaging & file sharing.
- Ensured data security and compliance with regulations.

HoduPhone | Android

- Developed an SIP client app for VoIP communication with call forwarding & voicemail.
- Optimized for low latency, high-quality calls, and reliable connectivity.
